Emmanuelle,

I am sorry for the misunderstanding, I was under the impression that you were on the Hopi Reservation last week. I guess the only real question I have at the moment is what is the current EPA Enforcement status on the affected Village PWSs? Also, if the new HUC's MOU/MOA is signed off by the participating villages, will that initiate the AOC process for the respective Village PWSs? Thx

Hi Jeff,

I'm sorry I was out of the office last week. If you'd like to schedule a call with me, let me know a time that will work. Wednesday afternoon or Thursday of this week would be my preference. I don't have a current plan yet to visit FMCV in-person but I hope to get out there later this fall. I can definitely schedule a visit to FMCV once I have a plan. Thanks!

Emmanuelle

Please: All data submittals to our office should be sent by email to datamanager@epa.gov with a copy to me (or your project manager in the Drinking Water Office). Data reports are due no later than the 10th of the month following the month that you receive results, or the 10th of the month following the compliance period, whichever comes first. Please include the whole lab report and copy of the Chain of Custody. Label with PWS name and number; & source or distribution system location codes or names for data collection points.

Emmanuelle,

Would there be any chance of scheduling a meeting with FMCV while you visit this week?

Hi Jeff,

I'm sorry for the delay in getting back to you. If you are around this afternoon, I can give you a call to update you on the status. We are still working out funding for the HAMP project which will determine start and end dates for the HAMP as well as wholesales costs to the villages. Let me know if there is a time this afternoon and I can give you a call. Thanks!

Subject: Next HAMP Bi Monthly Phone Conference date?

Emmanuelle,

Jeff Mansfield here, was just wondering when the next HAMP Bi-Monthly phone conference will take place? Also, what is the EPA Region 9 Enforcement stance of the progress of HAMP?

FMCV is basically in the dark when it comes to the current status, progress, and concerns regarding Hopi Village Compliance, therefore it is imperative for FMCV to be able to establish some sort of correspondence with either EPA Region 9 (yourself), or EPA Enforcement 9 in regards to AOC dates, dates for EPA compliance milestones (either FMCV and/or HUC), and any pertinent dates that will affect the FMCV PWS#09-0400106.

In the latest Hopi Tutuveni Paper, dated Tuesday, July 18, 2017, the HUC is reported to not only become "incorporated" under the Hopi Telecommunication Inc./HTI umbrella, but it is also reported that the current design plans may be revised, due to inflation cost and other purported issues which would insinuate that the HAMP design and planning would not only require additional funding (which is also stated to be un-acquired by the Tribe at this time) but most importantly more time. This info was acquired from the public media, and therefore I will state that if there is any lack of adequate communication in regards to HAMP and the 1st Mesa PWS, it would undoubtedly be attributed to the POC of the Hopi Tribe (Lionel Puhuyesva) and Mr. Tim Bodell.

FMCV has yet to receive any draft MOU/MOA from the HUC, specifying FMCV's concerns which are the following:

- 1) Start date of HAMP construction**
- 2) Specified wholesale cost per gallon, of HAMP waters**
- 3) Completion date of the HAMP construction**

These would be the most paramount concerns FMCV STILL has in relation to HAMP. I think that these 3 concerns are basic issues that should have been addressed years ago, and up to this day, FMCV is still un-informed. Below will be the email address that will allow you to access the most recent issue of the Hopi Tutuveni that was mentioned above. Thanks
